

DIRECTIONS IN AUSTRALIA'S AUTOMOTIVE INDUSTRY 2017

A new landmark report into the condition of Australia's automotive industry and what lies ahead is available now.

Directions in Australia's Automotive Industry: An Industry Report 2017 provides detailed insight into each automotive industry sector and answers key questions, including:

- How can automotive businesses prepare for the future?
- Where is the industry headed over the next few years?
- How will the industry endure when car manufacturing ceases?
- What trends are impacting on key sectors of the automotive industry?
- What does the automotive industry contribute to the Australian economy?

The report is essential reading for all automotive business owners seeking intelligence and insights as they position their business for the future.
