

Help protect our staff and prevent the spread of COVID-19

With the announcement by the World Health Organisation, Coronavirus is now a declared pandemic. The health and safety of our staff and customers are paramount and we respectfully ask for your assistance to help prevent the spread of coronavirus.

Please do not enter our premises if you answer “yes” to any of the following statements:

1. Have you returned from overseas within the last 14 days?
2. Have you been in close or casual contact with a confirmed case of COVID-19?
3. Are you currently experiencing any flu-like symptoms?

To reduce the amount of human-to-human contact we encourage staff, customers and visitors to maintain good hygiene practices and exercise social distancing, wherever possible.

We won't be shaking your hand.
We know you will understand.

We thank you for your understanding and cooperation.
