Paint and Panel Magazine National Survey into the Body Repair Industry

Dear member,

Panel and Paint Magazine are conducting a national survey into the state of the body repair industry. The purpose is to see how the industry is travelling - attitudes to the business and confidence in the future. VACC will publish the results for all to see. There has not been a national survey for a while.

The survey will have credibility if everyone can complete it. It will take only a few minutes to complete.

Please find the time today and make sure your views are captured by taking this link below:
