IM240 Emissions Testing: VIPAC No Longer Providing This Service – VASS Signatory Assistance Required

Dear Members

CVIAV has been notified by VicRoads that VIPAC, the only accredited provider of IM240 emissions testing in Victoria, has ceased conducting emissions testing as of 3 December 2018.

To support the immediate and short-term needs of your customers who will require IM240 emissions testing as part of their vehicle certification, VicRoads is requesting VASS Signatories identify and nominate providers, whom they believe are reputable and capable of providing IM240 emissions testing.

The nominated provider needs to be willing to undertake the accreditation process to enable the results they provide be accepted as part of the vehicle certification process.

Please email your nominations directly to Shayne Ellis as soon as possible.
