

Bulletin

Automotive Dismantlers and Recyclers Division

Reference No. insurance coverage/kz-9-22

Date: 20/09/2022

Have you checked your business insurance coverage recently?

Automotive Dismantler's and Recycler's; now is the time you should!

Dear members

Recent global economic events have changed the landscape for certain industries ability to obtain Insurance – Automotive Dismantlers and Recyclers have particularly been heavily impacted.

If you are an automotive dismantling and/or recycling business, the Australian Insurance market considers you to be a *recycler*, which means.

- If you are currently insured by a **local** Australian Insurer, you may not be covered if a claim arises in relation to your business.
- If you are currently insured by an **offshore** Insurer, you may have strict housekeeping rules which if you do not abide by could result in your claim being declined.

The Victorian Automotive Chamber of Commerce (**VACC**) and its preferred Insurance Partner **OurAuto** Insurance can help you navigate this extremely complex class of Insurance. To ensure your business is safeguarded from any potential loss, please contact **OurAuto Insurance** for an obligation free review of your business insurance package and a free compliance check to ensure you are adhering to any mandated housekeeping requirements.

Alternatively, you can contact your Industry Policy Advisor, Kathy Zdravevski.
