### Victorian flood emergency grants

Dear member

VACC recently engaged in a Victorian Flood Emergency Roundtable meeting with the Victorian Government.

One of the outcomes of the discussions was the provision of an information guide. The document outlines available grants with links to application criteria and forms based on the level of disturbance, damage and recovery required in affected workplaces and homes.

While there are criteria to be met to access various grants, VACC encourages all members to make themselves familiar with the support available.

Feel free to pass this information on to those in your work or local community who may also need assistance.
