

Dear Member

VACC has been in contact with the Essential Services Commission (ESC) and can inform members the release of the Accident Towing Regulation, Final Report (including final recommendations) is delayed. It will not be released by the ESC until at least the end of January 2016.

VACC will also be meeting with the Chair of ESC and senior executive of ESC to go through the report at the stage of its release.

Rest assured we will keep all TOD and BRD members informed as news comes to hand.

Best regards

John Guest
