

BULLETIN

Motorcycle Industry Division Farm and Industrial Machinery Dealers Association

Reference No: MID 03-18

Date issued: 27/02/2018

Clarification of the process for the registration for farm motorcycles, ATVs & Side by side vehicles, being used as special work vehicles.

After member enquiries regarding clarification of what is required when registering motorcycles, ATV's and side by side vehicles VACC has sought information from VicRoads which can be accessed by using the links below

[VicRoads - conditional registration business rules](#)

[VicRoads - Information for all businesses on the VicRoads Dealer Certification Scheme](#)

Please note '**Level 4 Conditions**' which apply to motorcycles, ATV's and side by side vehicles.

VACC have been advised that not all dealers are adhering to registration requirements for special work vehicles. Given the attention towards safe use of motorcycles, ATV's and SSV's any incident occurring with a vehicle not meeting the required registration requirements could implicate the selling dealer.

Please ensure you are meeting VicRoads rules when registering any motorcycle, ATV or SSV as a special work vehicle.
