Program Outline

This one-day course is designed to cover the current regulations and requirements of being a Licensed Vehicle Tester examiner (technician) under the current VicRoads scheme. It will include administrative and technical knowledge, an introduction to modifications, testing procedures, completion and understanding of documentation and your role as a Licensed Vehicle Tester within Victoria.

It will be presented in a way that attendees will be able to gauge their current level of knowledge whilst allowing the presenter to focus on where there may be gaps in current knowledge. There will be an assessment test at the completion of the course and minimum pass marks have been set.

Unsuccessful Completion

Where the student fails to meet the minimum pass marks they will be given an opportunity to sit the assessment again at a later date.

Pre reading prior to attendance

The course will address administrative responsibilities and procedures; technical inspection and modifications – particularly wheels & tyres, brakes, steering & suspension, lights & window tinting. It may be beneficial to familiarise yourself with the documents used throughout the course. VSI's, 8 (2011 & 2003), 26, 2, 22, 29 & 33; VSB 14 (2011), Road Safety Regulations 2009 Chapters 6 & 7.

Yours sincerely
