## Motorcycle Industry Division

Reference No: MID 02-17

Date issued: 25/08/2017

---

### Automotive Daily News Alert

Dear Member

A decision has been made by VACC Management to share information gained from various media sources with you on a daily basis.

I recommend you open this newsletter daily. It will only take you a short amount of time to scroll down the newsletter to access information you may be interested in.

Articles covering the motorcycle industry, motorcycle recalls and legislation impacting on our industry are regularly included. These are informative and I believe useful to you as a dealer principal. You may also be interested in information covering the automotive industry in general.

VACC's research division is an asset for members. Their recent Industry Report *Directions in Australia's Automotive Industry* is a great example the amount of information/data that is collected about the automotive industry! This is available for \$90.00 for VACC/MTA members (includes GST, postage & handling). The Non-member price is \$309.00 (incl. GST, postage & handling) and can be purchased online [by following this link](#).

I feel sure you will appreciate getting daily access to information about our industry as part of your VACC membership!

Regards

Stuart Strickland  
Industry Policy Adviser  
Industrial Relations, Policy and Engagement
