

Motor Trades Association of Australia (MTAA) releases online video on how to avoid unfair contract terms in the automotive industry

Dear Member

Thanks to the Motor Trades Association of Australia (MTAA), with expertise provided by HWL Ebsworth Lawyers, the automotive industry now has a comprehensive guide and online video to help protect businesses against unfair contract terms.

The guide '**Unfair contract terms in the automotive industry: Everything you need to know**', seeks to simplify complex unfair contract terms legislation, creating a usable tool for business owners and managers across 15 automotive industry sectors. Specifically, the guide helps businesses recognise unfair contract terms, explains what they mean for their operations, and what they can do should they encounter such terms in their contracts.

MTAA's guide will assist in ensuring businesses are ready for the unfair contract terms changes coming into effect on 9 November 2023. It includes 41 unfair contract term examples, explained in plain English.

The online [video](#) provides five unfair contract term examples from the [Guide](#).
