LVT – Changes to Taxi inspections

Dear VACC Members

VicRoads have announced as of 1 March 2017; all License Vehicle Testers will be eligible to conduct roadworthy inspections on taxi's, provided you have the appropriate accreditation, where applicable. For example, if the vehicle runs on LPG, you must be LPG accredited. This means that vehicles are no longer required to be inspected by a Licensed Taxi Tester (LTT). It is a regulatory requirement that taxis undergo an annual inspection to ensure they are roadworthy.

Attached here is the final version of VSI 26, please note VSI 31 is no longer in use.

Yours sincerely

John Khoury
