ACCESSING INFORMATION ON WHEEL NUT TORQUE

Dear Members

It has come to our attention that some members are experiencing difficulties locating manufacturers' specifications for wheel nut torque.

VACC would like to advise members that members can access this information via the following two methods:

1. VACC Tech Online > Tech Data > Torques and Specifications
2. VACC Call Centre and Library > OE Manuals and Aftermarket Manuals

The [attached GUIDE](#) outlines how to find the information via Tech Online.

For members paying the Tech Fee of \$175, VACC Tech Advisors can provide this information over the phone at the point of call.

Please note not all information contained in the library is online.

We hope you find this information useful.

Regards

Dr Imogen Reid
Industry Policy Advisor
Industry Divisions
