

Annual Wage Increase 2020
Manufacturing and Associated Industries and Occupations Award 2020
(Schedule B – Vehicle Manufacturing Employees)

Members were advised on 19 June 2020 that the Fair Work Commission awarded a 1.75 % increase to **all** minimum award rates of pay based on a 38-hour week.

This means that from the **first complete pay period commencing on or after 1 November 2020**, the above award minimum wage rates increase, and employers should make sure they pay their employees at least the minimum rates.

Note: this award schedule only applies to businesses which prior to 29 May 2020 were covered in Section 2 of the *Vehicle Manufacturing, Repair, Services and Retail Award 2010*.

Wages Guide

We have attached an electronic version of the guide [here](#).

The new wage rates are on the Industrial Relations section of the Member website www.vacc.com.au.
