

Infection Control Training helping Victorians

As Victoria emerges from the coronavirus (COVID-19) situation, businesses and workers need to ensure they can safely reopen and engage with customers.

Victorian TAFEs are now offering a free, short, accredited training course offered as a mixture of online and workplace-based learning, available to help staff in critical industries identify and manage the ongoing risk of coronavirus (COVID-19) infections.

Workers can be upskilled with this free, short, accredited training courses available to customer-facing employees in critical industry sectors.

After completion of the training, they will be able to confidently:

- follow standard and additional precautions for infection prevention and control
- identify infection hazards and assess risks
- follow procedures for managing risks associated with specific hazards.

Participants will learn a range of skills, including:

- Hand hygiene practices
- Effective surface cleaning
- Use of personal protective equipment
- Disposal of contaminated waste
- Hazard identification, control and reporting
- Appropriate protocols and responses in the event of an incident
- Knowledge regarding the basis of infection and transmission
