2022 Chair's Report

Dear Body Repair Division members

As we reflect on the year that was, COVID remained front and centre with our final quarter of 2022 really starting to settle into our 'new norm living with COVID'. The Chair's report is focused predominantly on the financial year that has passed; yet it is prudent to speak of items in conjunction with our long-standing policy work to assist in framing our outlook and better map what lies ahead, as we do this painstaking policy work for our future and not to submerge ourselves in the past. Advocacy and policy work is dry and tediously slow but remains the most effective for meaningful and sustainable change to our industry.

Please find [attached](#) the 2022 report from the VACC Body Repair Division Chair, Carly Ruggeri.

Kathy Zdravevski LLM(JD)
