Have you checked your business insurance coverage recently?

Body Repairers: you may be paying too much!

Dear members

The cost of running a body repair business is increasing and your business insurance is not immune to this. If you have not received an alternative quote recently you are likely overpaying.

The Tasmanian Automotive Chamber of Commerce ([TACC](#)) and its preferred insurance partner [Our Auto Insurance](#) have exclusively negotiated services for your Industry which have a proven track record of saving you money whilst not compromising on cover.

In the last 12 months, Our Auto Insurance has saved TACC members an average of 15-20% on Insurance premiums whilst including all required Motor Trades coverage which includes.

- Customer Vehicles driving risk and options for Material Damage.
- Rectification of Faulty Workmanship.
- Increased Care, Custody and Control.
- Errors and omissions on Roadworthy Certifications.

For an obligation free review and quote that will take you less than 5 minutes please reach out to the team at Our Auto; or alternatively please contact your Industry Policy Advisor, Kathy Zdravevski.
