URGENT webinar to discuss the Government outcomes for dealers of the NVES

Dear Members

The Australian Government will today release its draft legislation with regards to the New Vehicle Efficiency Standard (NVES).

The impact for members of the Victorian Automobile Dealers Association (VADA) will be massive.

The CEO of the Motor Trades Association of Australia (MTAA), Matt Hobbs, will address members on a specially convened webinar at 09.15-10.15am, Wednesday 27 March.

MTAA has been at the head of the table in negotiations with the Australian Government on what is a complex issue and political maelstrom of the likes not experienced for many years by dealers.

A special note of thanks to the franchise dealers in Bendigo for their work on the NVES.

You should register your attendance by taking the link below.
